Welcome message

APSSLH President message

I warmly welcome you to the 11th Asia Pacific Society of Speech, Language, and Hearing Conference in Ho Chi Minh City, Vietnam. It is my great pleasure to host the 11th APSSLH conference in partnership with the Vietnamese Audiology Association, Medical Committee Netherlands-Vietnam (MCNV)/Ho Chi Minh City University of Medicine and Pharmacy, and Korea International Cooperation Agency (KOICA)/Hue University of Medicine and Pharmacy.

The APSSLH is a professional organization that is dedicated to supporting researchers, practitioners, and students in Communication Sciences and Disorders and other related fields in the Asia Pacific region. The theme of the 2023 APSSLH Conference is “Connect: Build a Strong Network Among Us”. The profession of Communication Sciences and Disorders has been growing in Vietnam as well as in other Southeast Asia countries. Through our conference, I hope we will build a more robust network to empower our colleagues to successfully fulfill their jobs and support individuals who need speech, language, and hearing services in the Asia Pacific region.

Our 2023 conference will be an exciting event because this is the first APSSLH conference held in the Southeast Asia region since the APSSLH was established. I am delighted that over 300 researchers, practitioners, and students from 17 countries will participate in our conference. I am equally excited about the number and quality of oral sessions and poster presentations in all Communication Sciences and Disorders areas. I hope all participants enjoy this remarkable and historical event. I greatly appreciate attendees, speakers, board members, and organizing committee members for your dedication and support. My sincere appreciation also goes to our sponsors and partners (Speech, Language, and Hearing Journal, Smile Train, An Binh Hospital, Trinh Foundation of Australia, HearLIFE Hearing Care Centre, Japanese Cleft Palate Foundation, Daishinkai, and Sonova).

I hope you enjoy the content, renew your old network, and build a new one for your future research and practice!

Sincerely,
Sue Ann Lee, Ph.D., CCC-SLP
President of APSSLH
Professor, Texas Tech University Health Sciences Center, USA

Welcome message

Co-chair message

It is my greatest honor to serve as the conference chair for the 2023 Asia Pacific Society of Speech, Language, and Hearing (APSSLH) Conference. Since 1980, the APSSLH conference has been held biannually in various Asia Pacific countries where communication sciences and disorders have developed. It is exciting to announce that the APSSLH conference will be held in Ho Chi Minh City, Vietnam with two keynote speakers and several invited speakers from the world. The Keynote speakers, Dr. Shelley Velleman, and Dr. Giang Pham's research will advance our current knowledge of speech-language therapy and the invited speakers' educational workshops will enhance our knowledge and skills in speech-language therapy. I strongly believe that the APSSLH conference will facilitate speech-language therapy education and the profession in Vietnam and will inspire other adjacent countries where speech-language therapy is undeveloped. Please accept my warmest welcome and wish all participants a pleasurable experience in Ho Chi Minh City, Viet Nam.

Sincerely,
Le Khanh Dien, Ph.D.
Vice-President of APSSLH
Co-chair of the 2023 APSSLH Conference

Co-chair message

On behalf of Vietnam Audiology Association, I am so honored to serve as a co-conference chair for the Asia Pacific Society of Speech, Language, and Hearing (APSSLH) Conference. We are so proud of having the 2023 APSSLH Conference held the first time in Vietnam. The 2023 APSSLH Conference is a great opportunity for participants all over the world, especially Vietnamese to attend. Participants will get helpful information from over 70 international presentations and 3 workshops relating in Cleft Palate, Hearing loss, Speech disorders, Autism, Aphasia, Audiology... This is also the fantastic place where we can exchange and meet each other following the slogan: "Connect: Build A Strong Network Among Us". I am so pleased to welcome all of you in Ho Chi Minh City, Vietnam.

Sincerely,
Nguyen Tuyet Xuong, Associate Prof., M.D., Ph.D.
President of Vietnam Audiology Association
Co-chair of the 2023 APSSLH Conference

Welcome message

Co-organizer's message from KOICA, Jeonbuk National University and Hue University of Medicine and Pharmacy

On behalf of KOICA, Jeonbuk National University and Hue University of Medicine and Pharmacy, it is my great pleasure to participate as a co-host of the 2023 Asia Pacific Society of Speech, Language, and Hearing conference and invite all of the great scientists, academicians, young researchers, doctors and students from all over the world to attend this wonderful international conference in Ho Chi Minh City, Vietnam. Since 2016, Jeonbuk National University has been playing a humanitarian role for the development of speech, language and hearing therapy in Vietnam through KOICA projects. During this conference, we expect bring together, a multi-disciplinary group of scientists and professional experts from all over the world to present and exchange break-through ideas relating to the Communication Sciences and Disorders. It promotes top level research and globalize the quality research in general, thus making discussions, presentations more internationally competitive and focusing attention on the recent outstanding achievements in this field, then figure out future trends and solutions. I look forward to your active participation and wish inspiring and successful ideas.

Sincerely,

Myoung-Hwan Ko, M.D., Ph.D.

Project Manager of Korea International Cooperation Agency

Professor, Jeonbuk National University Medical School

Co-organizer's message from Medical Committee Netherlands Vietnam and Ho Chi Minh City University of Medicine and Pharmacy

Medical Committee Netherlands Vietnam (MCNV) is honored to collaborate with APSSLH and other partners to host the 2023 APSSLH Conference "Connect: Build a Strong Network among Us". MCNV is a Dutch NGO that has worked for health development and social inclusion for disadvantaged people in Vietnam for over 55 years. We are especially dedicated to the development of the Speech and Language Therapy (SLT) workforce and professional society in Vietnam. The Speech and Language Therapy profession has thrived strongly in the last 10 years in Vietnam thanks to effective cooperation among the Government, International Partners, Institutions, and service providers. MCNV has collaborated with several universities, especially Ho Chi Minh City University of Medicine and Pharmacy to develop successfully Master SLT program. The 2023 APSSLH conference is a special event for the Vietnamese SLT community. We hope it contributes to strengthening cooperation among local and international stakeholders to develop Speech and Language Therapy in the Asian Pacific region in general as well as Vietnam in particular. May I wish you all an excellent conference and a pleasant time in Vietnam.

Sincerely,

Pham Dung, M.D., MPH

Country Director MCNV in Vietnam

Keynote Speaker/Forum Discussion

Time	Topics	Speakers	Affiliations
9:00 – 9:50	Beyond the Phoneme: Phonological Systems at Risk	Shelley L. Velleman, Ph.D., CCC - SLP	University of Vermont, USA
10:00 – 10:50	Language and Reading Development in Vietnamese Children: What We Know and Need to Know	Giang Pham, Ph.D., CCC - SLP	San Diego State University, USA
11:00 – 12:00	The past, current, and future of Speech-Language Pathology in Vietnam		

Pediatric Session I

Pediatric Session I: Manwa Ng (Moderator)

Time	Session	Topics	Presenters	Affiliations
14:30 – 14:50	Pediatric Session I-1	Dynamic Assessment of Narrative in Cantonese: A Preliminary Study of Diagnostic Accuracy	Li Sheng	The Hong Kong Polytechnic University, Hong Kong
14:50 – 15:10	Pediatric Session I-2	Narrative Language Intervention: The Results of Two Large-Scale Studies	Trina D. Spencer	University of South Florida, USA
15:10 – 15:30	Pediatric Session I-3	Perception of Filipino SLPs on Shared Book Reading Strategies implemented during language intervention sessions: A phenomenological study	Jan Therese A. Parcon	University of Santo Tomas, Philippines

Adult Session I

Adult Session I: Isamu Shibamoto (Moderator)

Time	Session	Topics	Presenters	Affiliations
14:30 – 14:50	Adult Session I-1	Effect of synchronous speech telerehabilitation based on Oral Reading for Language with Aphasia on language ability and quality of life with post-stroke aphasia	Gan Li	West China Hospital, China
14:50 – 15:10	Adult Session I-2	Numeracy difficulties in developmental language disorder and aphasia: impact, assessment and intervention	Caroline Newton	University College London, UK
15:10 – 15:30	Adult Session I-3	Incorporating Board Games into Aphasia Rehabilitation	Chia-Hsin Wu	Yu-Sheng Speech Language Communication Rehabilitation Center, Taiwan

Pediatric Session II

Pediatric Session II: Sunjung Kim Thao (Moderator)

Time	Session	Topics	Presenters	Affiliations
16:00 – 16:20	Pediatric Session II-1	VietSLP Language Tools to Assess Vocabulary and Grammar in Vietnamese children	Pham Thuy Linh, Hoang Thu Hien	National College for Education, Vietnam
16:20 – 16:40	Pediatric Session II-2	Autism Spectrum Disorder Screening Tests for Children Under Age Three Years	Hye Kyeung Seung	California State University, USA
16:40 – 17:00	Pediatric Session II-3	Do measures of language and memory predict suggestibility in autistic children?	Faith Peik Hwa Ng	Blueprints Child Development Center, Malaysia

Adult Session II

Adult Session II: Jaeock Kim (Moderator)

Time	Session	Topics	Presenters	Affiliations
16:00 – 16:20	Adult Session II-1	Dysphonia in Older Adults and Presbyphonia Among Other Etiologies of Dysphonia in Treatment-seeking Older Patients	Thanh Nhan Doan	Quang Nam Northern Mountainous Region General Hospital, Vietnam
16:20 – 16:40	Adult Session II-2	The Roller Coaster: A Novel Reading Passage for the Assessment of Dysarthria in Cantonese Speakers	Min Ney Wong	The Hong Kong Polytechnic University, Hong Kong
16:40 – 17:00	Adult Session II-3	Validation of the Vietnamese Brief Fear of Negative Evaluation scale (BFNE) in adults who stutter	Truong Thi Quynh Ngan	Hue University of Medicine and Pharmacy, Vietnam

Professional development

Professional development: Eun Kyung Jeon (Moderator)

Time	Session	Topics	Presenters	Affiliations
8:00-8:20	Professional development-1	Reflections on clinical learning in a blended clinical education programme for speech-language pathology students	Janet Ho-ye Ng	The Hong Kong Polytechnic University, Hong Kong
8:20-8:40	Professional development-2	Adopting a system strengthening approach to nurturing the Speech - Language profession in Cambodia	Ruth Bryce, Chenda Net	OIC Cambodia, Cambodia
8:40-9:00	Professional development-3	How do we develop the next generation of excellent clinicians?	Brooke Hollowell	Springfield College, USA

Cleft Palate Session

Cleft Palate Session: Toko Hayakawa (Moderator)

Time	Session	Topics	Presenters	Affiliations
8:00-8:20	Cleft Palate Session-1	Velopharyngeal magnetic resonance imaging: from protocol setup to clinical applications	Youkyung Bae	The Ohio State University, USA
8:20-8:40	Cleft Palate Session-2	Single layer closure of large palatal fistula using anteriorly based dorsal tongue flap	Nguyen Thi Ngoc Lan	Vietnam National Children Hospital, Vietnam
8:40-9:00	Cleft Palate Session-3	Predictive factors in efficacy of parent-implemented intervention for children with cleft palate	Seunghye Ha	Hallym University, Korea

Pediatric Session III

Pediatric Session III: Youkyung Bae (Moderator)

Time	Session	Topics	Presenters	Affiliations
9:10-9:30	Pediatric Session III-1	Cantonese oral and speech motor assessment for preschool children with childhood apraxia of speech	Wong Chun Ho, Eddy	The Hong Kong Polytechnic University, Hong Kong
9:30-9:50	Pediatric Session III-2	Reimagining Reading Comprehension Assessments: Using Language Sample Analysis and Artificial Intelligence to Assess Reading Comprehension	Douglas Petersen	University of Wyoming, USA
9:50-10:10	Pediatric Session III-3	VietSLP: Tools to measure reading and related skills in Vietnamese children	Ben Pham, Van Pham, Ngoc Tran	Hanoi National University of Education, Vietnam
10:10-10:30	Pediatric Session III-4	Emerging trends in Education: Active learning for students with reading deficits	Sunjung Kim Thao	University of Central Arkansas, USA

Audiology Session I

Audiology Session I: Jingjing Guan (Moderator)

Time	Session	Topics	Presenters	Affiliations
13:00-13:20	Audiology Session I-1	Deaf or hard of hearing adults' experiences in different communication modes: A qualitative synthesis	Kan See Lok, Jason	The Hong Kong Polytechnic University, Hong Kong
13:20-13:40	Audiology Session I-2	Sign language development and application in Malaysian Deaf students' education	Chua Tuan Sek	University Sains Malaysia, Malaysia
13:40-14:00	Audiology Session I-3	Advancing Adult Audiologic Rehabilitation for Cochlear Implant Recipients	Eun Kyung Jeon	University of Iowa, USA

Audiology Session II

Audiology Session II: Krisna Lertsukprasert (Moderator)

Time	Session	Topics	Presenters	Affiliations
14:00-14:20	Audiology Session II-1	Development of Digits Triplet in Noise Mandarin Version	Da-Hsin Huang	Jen Sound Enterprise Company, Taiwan
14:20-14:40	Audiology Session II-2	Comparison of P-300 Study in Subjective Tinnitus with Normal Hearing Patients and Normal Hearing Adults	Napasswan Yodthong	Khon Kaen University, Thailand
14:40-15:00	Audiology Session II-3	How to do hearing research on patients with severe to profound hearing loss	Jingjing Guan	Sonova China

Bilingual Session

Bilingual Session: Hye Kyeong Seung (Moderator)

Time	Session	Topics	Presenters	Affiliations
15:20-15:40	Bilingual Session-1	Bilingual Phonological Awareness: the Case of Vietnamese-Japanese Children in Japanese Monolingual Classrooms	Au Tuong Vi	Seirei Christopher University, Japan
15:40-16:00	Bilingual Session-2	A Preliminary Study of the Phonological Skills of Five-Year-old Malay-English Bilingual	Phoon Hooi San	University Sains Malaysia, Malaysia
16:00-16:20	Bilingual Session-3	Early Language Development and Role of Phonological Neighbourhood Density for Cantonese-English Bilingual Children	Gladys Lok Ki Fan	The University of Hong Kong, Hong Kong

Swallowing Session

Swallowing Session: Wenjun Chen (Moderator)

Time	Session	Topics	Presenters	Affiliations
15:20-15:40	Swallowing Session-1	Characteristics of Speech and Swallowing Function in Parkinsonism	Ja Young Kim, Hyun Seung Kim	Yonsei University, Korea
15:40-16:00	Swallowing Session-2	What's on the plate? Adaptation and translation of Dysphagia Mealtimes Training for use in Vietnam	Le Khanh Dien	An Binh Hospital, Vietnam
16:00-16:20	Swallowing Session-3	Dysphagia Assessment by MASA scale and related factors in acute stroke patients	Le Ngoc Phuong	Dong Nai General Hospital, Vietnam

Symposium

Symposium 1			
9:10-10:30	Speech Assessment and Intervention for Children with Cleft Lip and Palate	Perfecto Paolo M. Sison III, Lalasa Mary Vankayalapati, Nguyen Thi Thanh	HELP Therapy Center, Philippines; SMILE TRAIN, Basavatarakam Indo - American Cancer Hospital and Research Institute; Vietnam National Hospital of Pediatrics, Vietnam
Symposium 2			
13:00-14:00	Talking children: Early intervention and access to services for children with communication needs	Sarah Verdon, Lucia Flint	Charles Sturt University, Australia
Symposium 3			
14:00-15:00	Culturally-tailored language intervention for young children with developmental language disorder	Danaee Donovan, Khanh Nguyen, Giang Pham	San Diego State University, USA
Symposium 4			
15:20-16:20	Building a Strong Network in Auditory-Verbal Therapy in Practice in the Asia Pacific Region	Lim Jia Chuan, Donna Dorothy Sperandio, Yen Ha	hearLIFE Hearing Care Center, Malaysia; MED-EL Corporation, Austria; hearLIFE Hearing Care Center, Malaysia

Workshop

Workshop 1			
14:30-17:00 2023/12/15	Listening and Spoken Language Development for Children with Deaf and Hard of Hearing	Mi-Sun Yoon	Korea Nazarene University, Korea
Workshop 2			
8:00-10:30 2023/12/16	Biopsychosocial approaches for aphasia interventions: improving the living experience of aphasia survivors	Fatimah Hani Hassan, Esther Kim, Brooke Hallowell	Kebangsaan Malaysia University, Malaysia; University of Alberta, Canada; Springfield College, USA
Workshop 3			
13:00-15:00 2023/12/16	Bridging Awareness to Action: Reshaping Communication, Care, and Support for Persons and Families Living with Dementia	Carla Krishan A. Cuadro	University of the Philippines, Philippines

Advanced Bionics Cochlear Implant - Designed for optimal hearing experience.

- **HASSLE-FREE:** Our **HiRes Ultra 3D** cochlear implant does not require removal during an MRI, so you can treat it like any other standard medical examination.
- **PAIN-FREE:** Our innovative multi-magnet assembly allows the magnets to spin in place so there's no movement within the components of the implant - ensuring no pain or discomfort during an MRI.

- **UNINTERRUPTED HEARING:** The only thing that you have to do to get an MRI is to take off the sound processor and put it back on after the MRI examination.
